Work experience

Full Stack Developer
From July 2022 to April 2023 Mifort Estonia, Tallinn

- Revamped a client's e-commerce website using WordPress and WooCommerce, *resulting in a **50%** increase in online sales and a **20%** boost in conversion rates.*
- Designed and implemented a custom React-based product filtering system, enabling users to find products more efficiently and *resulting in a **30%** increase* in average order value.
- Built a real-time chat app using React and Material-UI, handling *over **100** concurrent users* and achieving an *average response time of less than **200ms.***

React Developer
From March 2019 to May 2022 Sage Canada, Toronto

- Created a React application for managing customer orders, *resulting in a **25%*** increase in order processing efficiency and a ***15%** decrease* in customer support inquiries.
- Implemented Redux for state management, leading to a ***40%** reduction* in API requests and a seamless user experience across multiple screens.
- Optimized the application's SEO by implementing server-side rendering, resulting in a ***30%** increase in organic search traffic* and improved search engine rankings.
- Worked closely with the backend team to optimize API calls and reduce server response time, *resulting in a **60%** improvement* in API performance and enhanced system scalability.

Frontend developer
From April 2017 to January 2019 EVNE Developers New York, USA

- Developed a sleek user interface for a fintech application using React, resulting in a ***22%** increase* in user satisfaction and a ***19.2%** decrease* in bounce rate.
- Implemented responsive design using Bootstrap, leading to a 40% improvement in mobile user experience and a ***15%** increase in organic traffic.*
- Integrated custom Angular components with the existing backend system, *reducing page load time by **32%.***
- Created a landing page for a product launch, resulting in a ***34%** conversion rate* and generating ***$10,000*** in sales within the first week.
